

Mission Hills Laundromats

There are two laundromats on the property. One is located on the corner of Mission Hills Blvd. and Feather Drive. The other is located on Mission Circle.

Use of the laundromats is at the risk of each resident. The Association is not responsible for any lost or damaged property.

1. The operating hours are from 7:30am to 10:00pm, seven (7) days a week. The last load must start no later than 8:30pm.
2. NO CANADIAN QUARTERS! These coins jam the machines and are very costly to repair.
3. Washer run time is approximately 30 minutes. The cost is \$1.50 per machine per cycle.
4. Dryer run time is approximately 60 minutes. The cost is \$1.75 per machine per cycle.
5. These are community machines. Each resident is requested to use no more than two machines at one time.
6. Do NOT open machines while they are running. This offsets the programming and is costly to repair.
7. Residents MUST return promptly to remove their laundry from the machines after each cycle so the next resident will be able to use them.
8. Do NOT park in nearby carports or behind other cars when at the laundromat. Use the designated parking areas.
9. Clean the machines upon completion of your usage. Please make use of the cleaning supplies and trash receptacles provided.

Hot Water Heaters

Mission Hills consists of 477 condos on 66 acres. There are ten (10) phases/areas in which contain a total of 88 buildings. There are approximately two (2) hot water heaters in each phase. This means that your hot water tank is shared as a part of a community system.

Notify the office if problems arise with your water temperature. The law requires the temperature to be maintained at a maximum of 140 degrees, and we will follow that law. Do NOT attempt to change or alter the control panels at any time.
